

Surveyors & Assayers Pvt Ltd, India

We are proud to announce that the Chennai Laboratory of Stewart Surveyors & Assayers Pvt Ltd, India has successfully installed and commissioned a Carbon/Hydrogen/Nitrogen (CHN) Analyser of Make ELEMENTAR (Model: Vario Macro Cube)for Ultimate Analysis of coal.

We have analysed coal CRMs (2 Nos.) provided by ELEMENTAR in our Ultimate analyzer and the results obtained are within the Reproducibility limits. The instrument is working satisfactorily.

We are now ready to accept samples for Ultimate analysis of coal as per ASTM D 5373-08.
