

ALEX STEWART INTERNATIONAL UKRAINE

ANNOUNCEMENT

We are delighted to announce that on 3rd March, 2020, an Agreement was signed between Alex Stewart International Ukraine (ASi Ukraine) and Bilab Testing Laboratory (Food Safety Laboratory).

Taking into account the Company's experience and technically qualified staff, both parties decided to combine their respective resources and skills to be able provide the fullest range of inspection and analysis services, including safety analysis, for goods exported from Ukraine.

Brief information on Bilab Testing laboratory:

BiLab is a professional, independent and trustworthy provider of accredited laboratory services in the field of foods, feed and ingredients for safety monitoring of food and feed industries, as well as soils and biomass products.

The main activities of Bilab are focussed on detecting residues and contaminants, such as pesticides, PCBs, PAH, fumigants, toxins, gossypol, melamine, etc. by liquid and gas chromatography in tandem with mass-spectroscopy detection.

BiLab is accredited according to ISO 17025 standards.

The quality of results is confirmed by participation in various international proficiency tests, such as FAPAS, RomerLabs, etc., in order to provide customers an independent assessment using professional laboratory equipment, methods and staff.
