

NOW RECRUITING!

FIRE ASSAY - SHIFT LEADER

Alex Stewart International would like to invite applicants within its laboratories for the post of Fire Assayer – Shift Leader. The successful candidate will join our experienced laboratory team, which is based at the Company's UK Headquarters in Liverpool.

This full-time role will help our team to provide experienced accredited and quality based analysis services which require knowledge and skills that include:

- Supervision of Fire Assay Operations
- Leadership Skills and Qualities
- Familiarity of ISO 17025 Methods and Procedures for the Fire Assay Area
- Adherence to Company Health and Safety Compliance Procedures

The successful candidate should have suitable experience gained in this role. The Company offer a range of benefits, including a competitive salary, flexible work arrangements within a shift system, overtime opportunities, up to 5 weeks holiday and Contributory Pension and Life Insurance Schemes.

JOB OPPORTUNITY

Please send your applications by email, stating your qualifications and experience to Mr. Adam Leadbetter
